

Stand out in business with the new BlackBerry Bold 9700

Make a strong business statement with the new BlackBerry Bold 9700. Sleeker, more compact and with a range of new tools, this smartphone takes working on the move to an all new level.

Staying responsive to clients and colleagues, as well as keeping in touch with friends and family, is even easier thanks to the new BlackBerry Bold 9700 smartphone. It's now 3G compatible, so you can send and receive documents faster than ever before. Plus viewing all of your files has been made simpler with a Trackpad, which provides a more laptop-like "scrolling" experience. In addition, you can also enjoy the convenience of a longer battery life, so there's less chance of you ever missing a call, deadline or opportunity.

Of course, you can still enjoy all of the other fantastic features you would expect from a BlackBerry. The full qwerty keyboard makes writing emails, editing Microsoft

Word, Excel and Power-Point documents while on-the-go incredibly simple. Plus, with wi-fi support and Bluetooth compatibility, you can stay reactive and focus on more than one task.

At the end of a long day you can also look forward to some entertainment from your BlackBerry. You can access music, videos, news and websites through mobile streaming, or watch your own videos in glorious high-resolution and listen to your own music from the Media Player.

So if you want a phone that is as hard working as you are; make sure you choose the new BlackBerry Bold 9700.
